

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS EkinsGuinness Global Thematics Fund (the "Fund"),

a fund within WS EkinsGuinness Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

F Income (ISIN: GB00BTFYPJ30)

Objective and Investment Policy

Objective

The investment objective of the Fund is to achieve capital growth and income over the long term (5 + years).

Investment Policy

The Fund seeks to achieve its objective by investing at least 70% in equities across global markets (including in emerging markets). As part of the equity exposure, the Fund may invest in Real Estate Investment Trusts (REITs). The Fund may also invest in fixed income securities (both government and public securities and corporate bonds) money market instruments, warrants, deposits, cash and near cash. Up to 10% of the Fund's value may be invested in collective investment schemes (which may include those managed and/or operated by the ACD and which will provide exposure to various asset classes including equities and fixed income).

The Fund is actively managed.

The Fund takes a thematic approach to investment in equities, by identifying sectors demonstrating growing demand (themes). Using its own research and judgement, the Investment Adviser will analyse whether such increased demand is as a result of company specific issues or thematic rises in economic activity.

The Investment Adviser will invest in the leading, established or proven companies which will benefit from any identified theme (for example,

consumer goods, digitalisation, healthcare, tourism). The Fund does not have any particular geographic industry or economic sector focus and as such weightings in these may vary as required.

Other features of the Fund:

The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

You can buy and sell shares in the Fund on each business day.

The Fund aims to distribute available income every six months. The level of income is not guaranteed and may fluctuate.

The Investment Adviser may adopt an active currency overlay using derivatives including currency forwards with the intention of reducing currency risk and/or enhancing returns. The Fund may also use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns may have varied. It is a measure of the Fund's volatility. As the Fund has less than 5 years history, this calculation incorporates the volatility of an appropriate benchmark index.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 5 because its volatility has been measured as above average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- Counterparty Risk: The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- Emerging Markets Risk: The Fund may invest in emerging markets,

which are markets in developing countries. These markets may be more volatile than developed markets and may have less well-developed regulatory systems and disclosure standards. Emerging markets may have more political and economic risks that may result in large and frequent price movements. There is also a higher risk of liquidity issues or counterparty defaults, which could cause a loss to the Fund.

- Change in Interest Rate Risk: A rise in interest rates generally causes bond prices to fall. The value of fixed interest securities may also be affected by trends in interest rates, inflation and credit ratings.
- Credit Risk: The value of a bond or other fixed interest security may be affected by its credit rating. A lower credit rating increases the risk that the issuer may not pay interest or repaying the loan. Fixed interest securities are also influenced by trends in interest rates and inflation, which can cause their value to fluctuate.
- Liquidity Risk: The Fund may invest in assets such as corporate bonds or shares in smaller companies, that could become difficult to buy or sell in adverse market conditions. This may delay or restrict the Fund's ability to meet redemption requests and could negatively affect the Fund's value.
- Company Bond Risk: In unfavourable market conditions, bonds issued by companies may be harder to sell in a timely manner and at reasonable prices, than in normal market conditions. This could have a negative impact on the value of the Fund. In extreme market conditions this could affect the Fund's ability to meet investors' redemptions.
- Alternative Investment Risk: The Fund may invest in other investment vehicles to gain indirect exposure to alternative assets. These may include, where applicable, commodities, precious metals, real estate, private equity or other illiquid strategies. Such investments can involve a higher degree of risk and may be more volatile, which could increase the risk of loss. There is also a possibility of delays in receiving redemption proceeds.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.

Charges taken from the Fund over the year

Ongoing Charges	0.93%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

The ongoing charges figure is based on expenses as at 23 June 2025. This figure may vary from year to year.

It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian and any entry/ exit charge paid when buying or selling shares/ units in another fund.

You may also be charged a dilution adjustment (an adjustment to cover dealing costs incurred by the Fund) on entry to or exit from the Fund.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Company's Prospectus, available at www.waystone.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the share class.

Past performance is not a guide to future performance.

The Fund was launched on 20 June 2025. This share class was launched on 20 June 2025.

Past performance is calculated in GBP.

Practical Information
